

# Clean Energy Manager

The Metropolitan Area Planning Council (MAPC), the regional planning agency for Metro Boston, seeks a Clean Energy Manager to help achieve MAPC's local and regional clean energy and sustainability goals. Oversee all of MAPC's clean energy work, including local energy planning, regional energy procurements, and local and state energy policy. The Manager helps to integrate clean energy practices into all aspects of MAPC's planning work, as well as develops partnerships with municipalities, community-based organizations, policymakers, to advance clean energy efforts throughout the Commonwealth.

**Additional responsibilities include:** Manage all aspects of regional energy procurements, including: developing project scopes, soliciting project participants, writing and issuing solicitations, organizing and guiding selection processes, and supporting municipal project execution; Oversee local energy planning activities including: meeting with municipal officials and project partners.

**Qualifications:** MA in planning, public policy/administration, or engineering, with training in energy systems or related disciplines and a minimum of three years of professional experience working directly to promote clean energy development at the local and regional level in a public or private sector setting or relevant bachelor's degree and a minimum of five years of relevant professional experience.

Full-time position with an excellent state employee benefits package. Salary range from \$64,000 to \$74,000 depending on qualifications and experience. This position is exempt under the guidelines of the federal Fair Labor Standards Act. Position open until filled. Candidates must have legal authorization to work in the USA and a valid driver's license and/or the ability to arrange transportation to meetings in different parts of the region.

*MAPC is an EOE/AA employer. MAPC takes pride in the diversity of its workforce and encourages all qualified persons to apply.*
